

5.2 Contents and Submission of Stormwater Management Plans

- E. Construction drawings submitted for final stormwater management plan approval shall include, but are not limited to:
- (1) A vicinity map;
 - (2) Existing and proposed topography and proposed drainage areas, including areas necessary to determine downstream analysis for proposed stormwater management facilities;
 - (3) Any proposed improvements including location of buildings or other structures, impervious surfaces, storm drainage facilities, and all grading;
 - (4) The location of existing and proposed structures and utilities;
 - (5) Any easements and rights-of-way;
 - (6) The delineation, if applicable, of the 100-year floodplain and any on-site wetlands;
 - (7) Structural and construction details including representative cross sections for all components of the proposed drainage system or systems, and stormwater management facilities;
 - (8) All necessary construction specifications;
 - (9) A sequence of construction;
 - (10) Data for total site area, disturbed area, new impervious area, and total impervious area;
 - (11) A table showing the ESD and unified sizing criteria volumes required in the Design Manual;
 - (12) A table of materials to be used for stormwater management facility planting;
 - (13) All soil boring logs and locations;
 - (14) An inspection and maintenance schedule;
 - (15) Certification by the owner/developer that all stormwater management construction will be done according to this plan;
 - (16) An as-built certification signature block to be executed after project completion;
 - (17) Any other information required by the Stormwater Management Office.
