

Chapter 4

Consultant Topic List

1. Update existing land use and projected growth numbers.
2. Update Section 4.4 using current projections, latest documentation references and current processes. Specifically, refer to the last Water & Sewer Master Plan for Section 4.4.2 and the Deep Creek Watershed Management Plan and Administrative Council.
3. Update the watershed and influence area mapping to coincide with the proposed land use mapping changes in Chapter 3.
4. In Section 4.6, highlight the need for pedestrian safety measures on roads such as Glendale Rd, Deep Creek Dr and Mosser Rd.
5. In Section 4.7, ensure congruence with the latest Water & Sewer Master Plan priorities, highlight the combining of the McHenry & Thayerville water systems, and ensure the potential growth needs are adequately planned for, specifically in the McHenry area.
6. In Section 4.9, highlight the importance of trail connectivity in creating a more attractive trail network.
