I have been looking into the GTS system in GC for several yrs. Good & Bad. Based on what I have found based on interviews of the last two GTS Managers, I feel the system is reactive & not proactive to the GC potential users. For instance, the GTS use for taking workers to & from work. GTS actually has established regulars that form established routes. Its not shared so others can join in similar areas to & from. GTS needs to advertise & support this more. GTS has improved, at lease in ideas, Out of state medical runs that increase utilization from scheduling. Storing GTS vehicles in areas over night such as Grantsville so they can better serve that area. Acquiring software to better reduce travel for multiple pick-ups. I still believe GC major business centers could support both workers and shoppers during the peak tourist periods. Consider holding meetings for ideas for better utilization of GC residents. dickbolt@comcast.net
