To what chapter of the Comprehensive Plan does this comment pertain? Chapter Ten - Mineral Resources Element

Comment

The majority of Garrett county citizens do not want fracking, Friendsville adopted a fracking Ban, The State of Maryland Ban Fracking, the handful of Garrett County citizens for fracking should not be represented in the County comprehensive plan. The few citizens should not outweigh the many. My conclusion and suggestion to the Planning Commission is that the county plan NEEDS to say "fracking is not allowed anywhere in Garrett County" to be in harmony with the majority of Garrett Countians and Maryland. What I did not include was that comments from citizens within municipalities that have zoning are pertinent to the fracking issue as it might be considered wordage in the county plan, since fracking effects us all, especially Friendsville as our Source Water Protection plan points out. Please make sure that the rest of the commission understands this.
