*If line extension is needed, property owner will be responsible for all costs of extension.*

**ALL WATER TAPS THAT REMAIN IN INACTIVE STATUS FOR 2 YEARS FROM THE DATE OF PURCHASE SHALL BE ASSESSED A CHARGE OF 50% OF THE YEARLY OPERATION & MAINTENANCE FEE.**

Homeowner options for well after connection  
to public water is made  
per the Garrett County Health Department:

- 1) If owner chooses to keep their well for non-potable uses such as car washing and lawn watering the well cannot be connected to any portion of the public water supply. The well must also be a useable water supply. This means that the pump in the well and components that make the well usable such as a pressure tank and separate faucet must be maintained.
- 2) If the owner does not want to maintain the well in a usable condition the well must be abandoned by a licensed well driller. The driller will submit the required abandonment documentation to the Health Department.
