**Notes:** Hertrich - Tahoes - 3.42 rear axle requires Max Trailering pkg which also requires aluminum wheels. This may be deleted for a credit of \$890.00. The Tahoe would have standard tow pkg with a 3.08 rear axle ratio.

Criswell - Tahoe rear axle ratio 3.08. Seat code with bucket seats and console delete is AZ3. Onstar delete, also delete Bluetooth for phone. Add #85 per Tahoe for Bluetooth.

Team One - GM order system would not let me select option9G8 (delete daytime headlights control). All 3 will have daytime running lights and automatic headlamp control.
