				<b>\$48,300.00</b>				<b>\$80,800.00</b>

**Notes:** Motionway – This type of Modular LED Tile measures 2.52' x 2.52', so building a perfect 12' x 16' screen is not possible. The size provided is the closest size recommended without going below a 4:3 screen aspect ratio. 2 of the 3 mobile screens offered match your specification exactly. Item 5 is a truck mounted screen with a screen aspect ratio of 16:9. This truck also contains an on-board production room.

GoVison – Alternates for Items 1 & 2 – Daktronics/PST12mm/12 x 16/1/\$20,300 per screen. Given your dates these are all (2) week rentals. My modular are quoted as Real/true 10mm & 12mm resolutions. Be very careful of vendors bidding “virtual” 10mm or 12mm and only quoting as (1) week rental for now.
